Please check guard's [GitHub issue tracker](#) for known issues. Additionally you should check [listen's issue tracker](#) for issues which affect guard's behaviour; for example, there is currently a nasty [bug preventing listen from watching files inside symlinked directories](#).

You can report bugs and feature requests to [GitHub Issues](#).

Please don't ask question in the issue tracker, instead ask them at one of our other places:

- Use the guard tag at [StackOverflow](#).
- [Google+ community](#)
- [Google group](#)
- IRC channel `#guard` ([irc.freenode.net](#)) for chatting
